Technohaven Billing System (TBS)

TBS has been designed and developed as a complete billing and accounts receivable solution for metered and non-metered (Flat) Water, Sewer, Gas, and Electric Utilities; Municipal Governments; and other Billing Services. TBS is providing billing and accounting services to utility customers since 2005. Its features include digitized searchable notes and reminder list, daily planner, customer message center, sales and collection analysis and revenue/growth projections.

TBS is developed under rigorous ISO 9001:2000 standard quality assurance environment and is designed for flexibility, ease of operation and security.

SALIENT FEATURES

TBS is a major upgrade of the TBS 1.0 system. Among the improvements are:

- Formalized support for Linux, Windows XP and Windows Server 2003
- Improved business process customization
- Ability to save all past bills just the way they were sent out
- Enhanced reporting
- Faster billing calculation engine
- Enhanced data entry validation checks to minimize human errors
- Expanded system configuration ability to help you run your operation your way
- LAN & WAN connectivity
- GSM Bill Pay Supported

TECHNOHAVEN BILLING SYSTEM (TBS)

TBS PAYS FOR ITSELF THROUGH HIGHER EARNINGS & REDUCED OPERATING COSTS, IN LESS THAN 12 MONTHS.

TBS Modules

This integrated package includes the following modules:

System Data & Customer Code Book Module
Admin Module
