## TECHNOHAVEN ENTERPRISE RESOURCE MANAGEMENT SYSTEM (TERMS)

### Salient Features of TERMS

**Technohaven** commissioned a comprehensive survey of the ERP market and developed & launched TERMS with the following features:

- 1) Microsoft Windows front end and secured RDBMS (Oracle) as backend
- 2) Advance product shipment allocation based on order
- 3) Bill of material (BOM)
- 4) Automated and integrated all business processes
- 5) Coordination between all departments
- 6) Implementation of a standardized technology infrastructure
- 7) Provides employees with a graphical, easy to learn user interface
- 8) Increased competitiveness in pricing
- 9) Reduced manufacturing system loss
- 10) Overall price reduction on purchased items
- 11) Improved planning and reduced planning headcount
- 12) Meet every shipment deadline
- 13) Minimize data entry operation
- 14) Better decision-making
- 15) Customization and scalable client-server features

**Technohaven TERMS** is designed to optimize operations. With appropriate authority one can operate designated tasks from his/her respective workstation. For example, the head of operation may use, edit and access reports using the entire system while an officer in that department may be allowed to do only a part of the operation and the top management can monitor the entire operations and obtain appropriate reports as required.

### Benefits

- Enforces an identical work standard for everybody.
- Controlled & streamlined operation.
- Availability of reports, analysis, classification, group positions, receivables, rescheduling etc. anytime
- Tracking of any operation.
- Paperless system of operation reduces stationery costs considerably.
- Error minimization
- Minimization of wastage
- Real-Time Production Status

### Technology Platform

**TERMS** ensures latest world-class standards because:

- It is developed in latest software & RDBMS tools
- It is a real-time enterprise-class solution
- It is user friendly, robust and integrates with third party software
- It is well documented and developed under ISO 9001:2000 standard
