Why Choose Bangladeshi Software Development Centers

Political Stability: It has a democratic and stable political system. No ethnic or religion based troubles since its independence in 1971.

Government Support: Bangladesh Government provides various tax breaks to software firms.

Educational System: Bangladesh colleges and universities follow British and American education system. The country has 26 state owned and 61 private universities. The education system turns out more than six thousand ICT graduates a year.

Availability of Skilled Human Resources: The country produces 6,000 computer science graduates and 13,000 computer diploma holders. Besides 2,500 graduates return to the country after completing computer science graduation from USA/UK and other foreign countries.

Software and Hardware Resources: Bangladesh allows duty and tax free import of computer hardware and software. All major IT vendors have sales offices in the country (IBM, DELL, CISCO, HP, Microsoft, Oracle & others).
