Technohaven Import Export General Manifest (TEIGEM)

TEIGEM stands for Technohaven Import Export General Manifest. This is customized software for any type of shipping company who are involved in import-export related business. The shipping company's main work is generating manifest which it submits to different authorities. For these the company faces many problems in making manifests accurately and quickly.

TEIGEM generates automatic Import Export General Manifest. You can capture data from different data source. You can export manifest data to excel work sheet according to port authority preformatted excel worksheet. Or directly input your data to TEIGEM. Here you can generate much type of parameterized reports.

The objective of the software is to generate Export General Manifest (EGM) & Import General Manifest (IGM). EGM & IGM reports are generated mainly for the following authorities.

- Bangladesh Bank
- Port Authorities
- Customer
- Company internal use.

Technohaven Company Ltd A Business Apps. Co.
